CLEANUP NOTES &
MODEL SHEETS

What is the Lilo Clean Up Style???

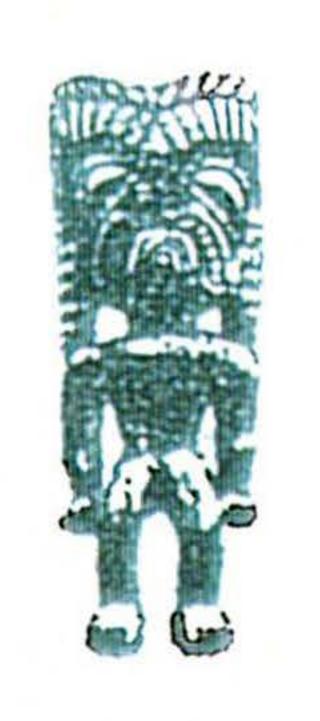

- · Do your drawings have rounded, solid forms?
 - · Is the character weighted to the ground?
 - · Do your drawings have Appeal ?!?!

(If you answered no to 2 or more of the proceeding questions, you're probably not the envy of your Lilo Clean Up friends.)

Sc. 7/4 "Line Motif"

Refer to this drawing for actual line thicknesses...

Please try to maintain the approach used in this drawing -

Basically, heavier lines to give a weighted, "shadowcy" Feeling to undersides of shapes:

- bottom edge of spines
- undersides of sleeves
- bottom of torso
- inside edges of teeth
- inside top of nostril
- bottom edge of gun barrel & "buttoms

AISO,

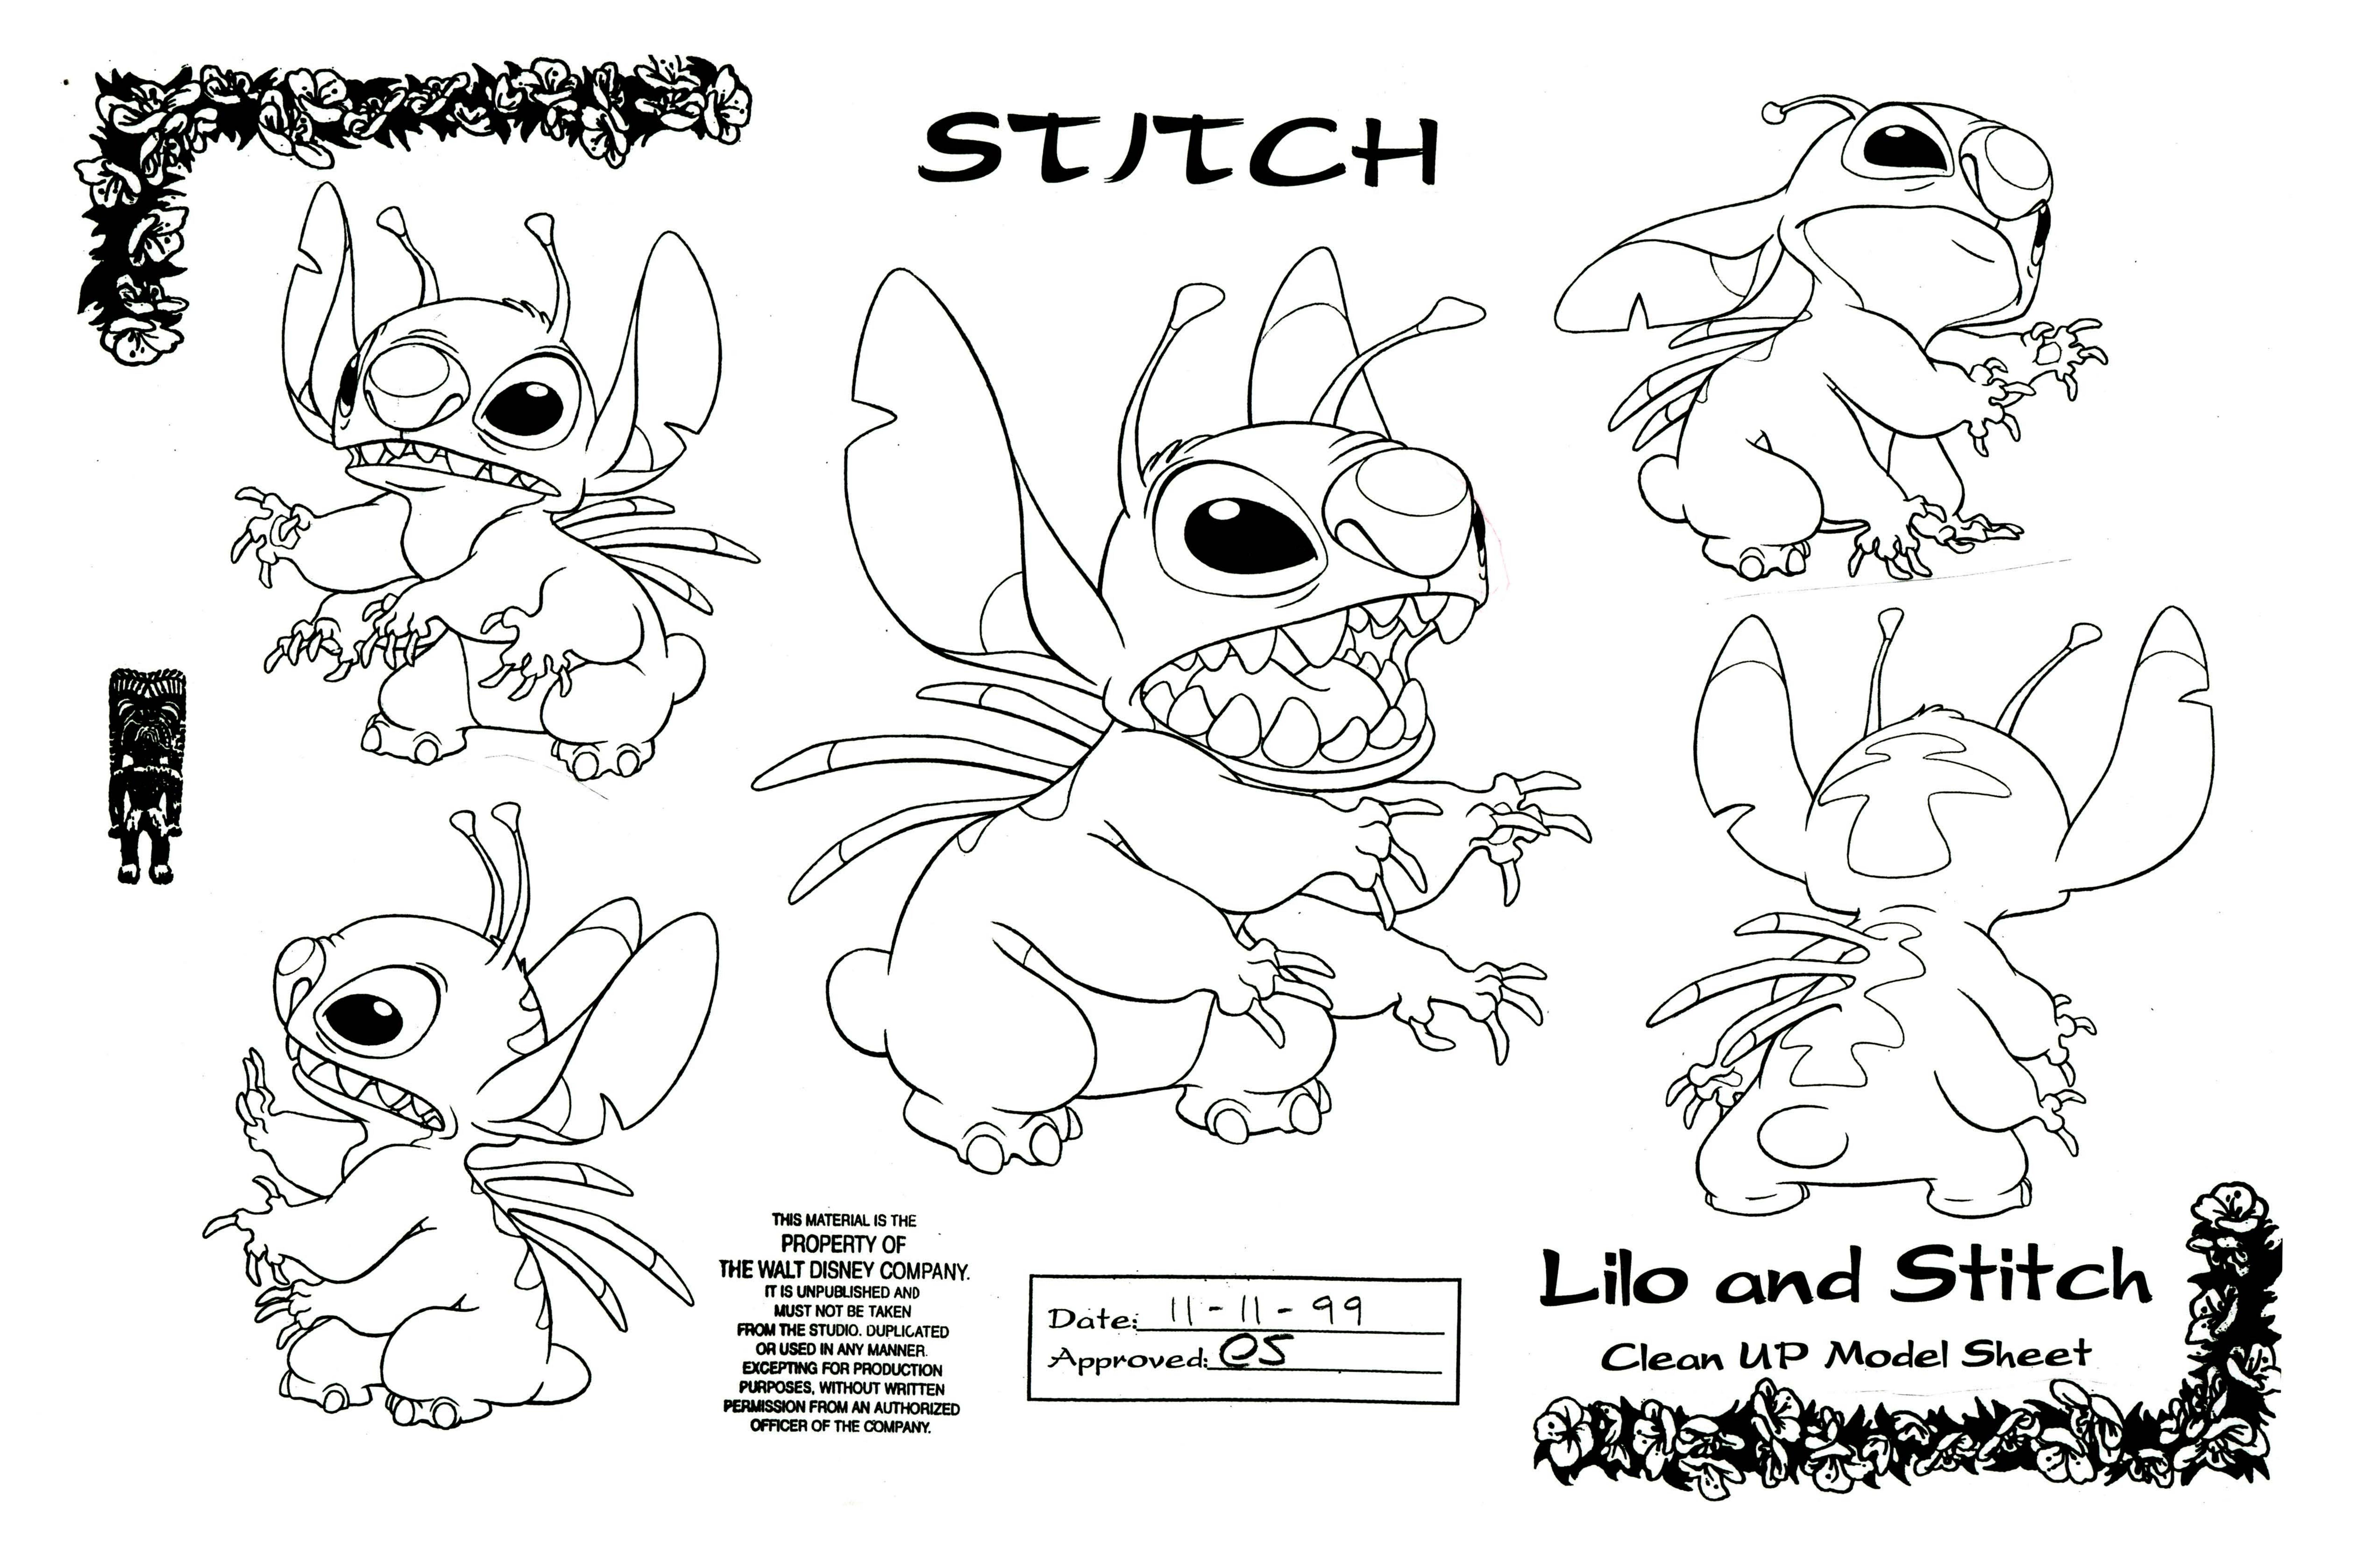

- front edge of each ear, to bring it closer to us

As always, the heaviest lines should be the eyebrows and the spine stripes! Be Subtle, Be Consistent

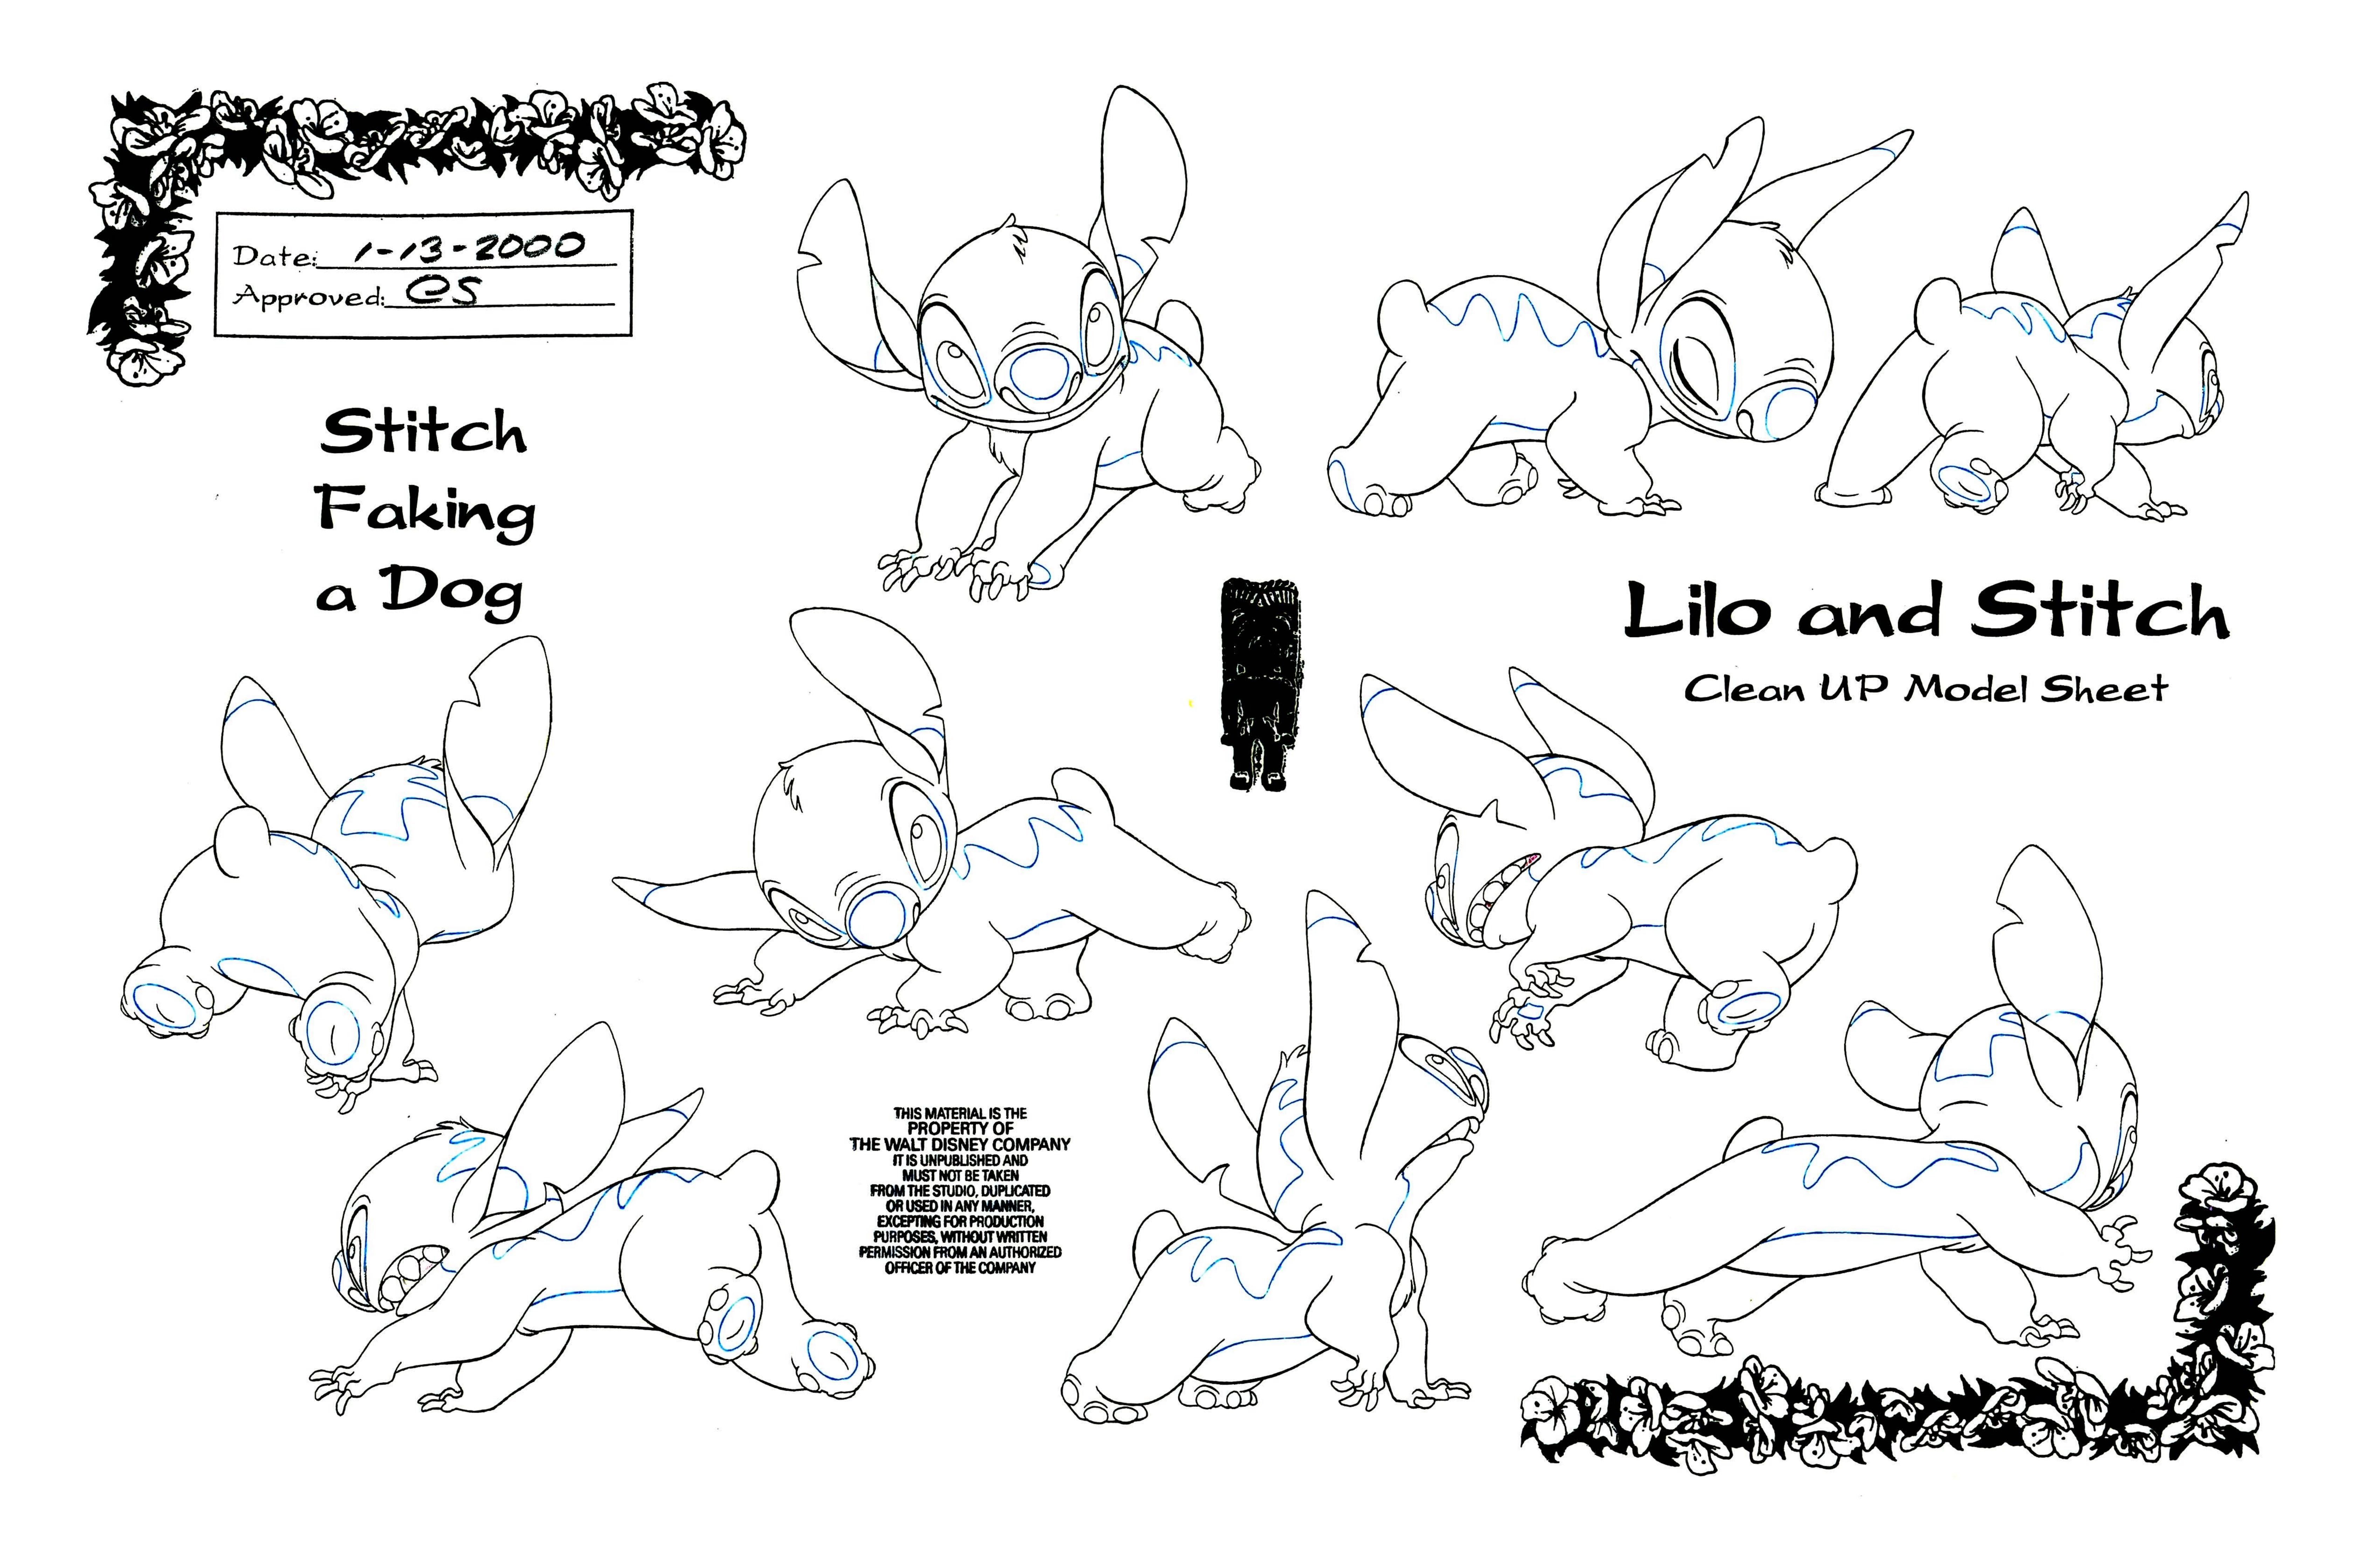

Lines shown exaggerated here -DO NOT make lines this actual thickness
